Don't Be Misled.

Norway Citizens Should Read and Heed This Advice.

Kidney trouble is dangerous and often fatal.

Don't experiment with something new and untried.

Use a tested and proven kidney remedy.

Begin with Doan's Kidney Pills.

Used in kidney troubles 75 years.

Doan's have cured thousands.

Are recommended here and every-where.

A Norway citizen's statement forms convincing proof.

It's local testimony—it can be investi-gated.

W. F. Cotton, farmer, Deering St., Norway, Me., says: "For a long time I suffered from backache and was often so bad that I could scarcely get about. The kidney secretions were also irregular in passage. When I heard Doan's Kid-ney Pills highly praised, I obtained a box and began their use. They gave me prompt relief and before long they effected a complete cure."

There is more Catarrh in this section of the country than all other diseases put together, and the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed a local remedy, and by constantly failing to cure with local treatment, pronounced it in-curable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. Chas. & Co., Toledo, Ohio is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and the mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. A Bald-headed Woman.

Short of her Crown of Beauty. Loses in Love and Marriage.

Hair is certainly most necessary to woman. Who could love and marry a bald-headed woman? What charms could one array to offset such a dis-figurement?

A woman's goal is usually love and marriage. In the crowning glory is her hair. The loss of her hair mars her beauty, happiness, and success. Yet, right here in Norway, there are thou-sands of women who are neglecting or injuring their hair to such an extent that it is only a matter of time when it will be utterly ruined.

Many women destroy the beauty of their hair through thoughtlessness or ignorance of certain facts. They use curling tongs over-heated, or to excess, which destroys the natural oil of the hair, causing it to split, break, and come out. They do not shampoo their hair often enough, or too often. They use soaps or preparations which contain ingredients positively harmful to the scalp and hair.

As a result of such treatment, dandruff is created, the hair loosens, loses color, falls out, and baldness commences, un-less proper and prompt precautions are taken in time. Then again, microbes and certain diseases bring about un-healthy scalp and hair conditions.

Almost any woman may rid herself of dandruff and diseased scalp and hair if she will but use the right remedy. We guarantee that it will either cure dandruff and baldness or it will not cost the user anything.

That's a pretty broad statement, but we will back it and prove it with our own money. We will return your money if you do not find that Rexall's "93" Hair Tonic is an entirely satisfactory remedy that will promote hair growth and over-come scalp and hair troubles; that it will grow hair even on bald heads, unless all life in the hair roots has been extin-guished, the follicles closed, and the scalp is glazed and shiny. It gets its name from the fact that it grew hair in 93 out of 100 cases, where it received a thoroughly hard, impartial, and practical test.

We want you to try Rexall's "93" Hair Tonic at our risk. You surely cannot lose anything by doing so, while you have everything to gain. You had better think this over, and then come to us about this offer. You will be well repaid for your visit to our store. Re-member, you can get Rexall's Remedies in this community only at our store—The Rexall Store. F. P. Stone, 143 Main Street, Norway, Me.

Headaches, and Their Treatment.

In treating a headache, there is one
safe rule to follow—Never use any
medicine containing acetanilid or similar
coal-tar derivatives without the advice
of your physician. They may give
temporary relief, but they almost never
reach the cause of the trouble and are
likely to weaken the heart. The most
common form of headache, frequently
called sick headache, arising from a
disordered stomach, may be avoided
by care in the choice of food. Shun
pastry, candy and rich food, take time
to eat, chew your food thoroughly and
keep your bowels in good condition by
using one-half to one teaspoonful of
L. F. Atwood's Medicine after each
meal. This old reliable remedy has
been a perfect blessing to thousands
for sixty years. Get a bottle today,
and prove it for yourself. Any dealer
has it for thirty-five cents, or we mail

Supreme Judicial Court.

The first case to come before the jury for trial was that of W. Scott Robinson of Hartford vs. Tascus Atwood et al, executors.

George H. Dunn one of the super-numeraries was chosen as the first juror in the place of A. E. George of Hebron. It seems that Mr. Robinson's daughter, Winnifred Robinson purchased the Fox place so-called in Hartford for \$1000, procuring the money from Chas. D. Martin of Auburn.

On this place was a lot called the Cox lot which contained a quantity of lumber. It seems the lumber business was in charge of Miss Robinson, who sold off the lumber to pay her indebtedness. This happened in 1905 and she was taken ill and her illness lasted nearly a year and in the mean time her father carried on her business. At different times Mr. Martin advanced money, taking Miss Robinson's notes, for the same. During her illness her father loaded about 500 cords of wood to ship to Lewiston and claims that he was doing the work for C. D. Martin and not for his daughter and that he has not received his pay which amounts to some over \$200. The defense claims the plaintiff never even put in his bill for work until long after the death of Martin.

The entire day was devoted to the hearing of this case. The greater part testimony by the defendants was written evidence and necessitated the use of a number of hours in collecting and getting the testimony.

Thursday morning the judge gave his charge to the jury. After being out sometime the verdict was returned in favor of the defendant.

The attorney in the case are, Oakes, Pulsifer & Ludden, of Auburn, for the Plaintiff represented by Henry W. Oakes; and Tascus Atwood of Auburn for the executors.

There was some criticism by a number of the voters who thought the Park had been neglected.

Mr. Starbird and Mr. Wheeler, the assessors, claimed that the past year the water pipes were badly filled with rust and that it would cost about \$100 to lay new pipes so that the Park could be sprinkled, and it was thought advisable by the assessors that they did not need to use the fertilizer as suggested at the meeting last year.

\$100 was appropriated for the care of the Park.

Temporary loans not exceeding \$1,500 were authorized.

Mrs. Isabelle M. Keith.

Mrs. Isabelle M. (McLean) Keith passed away Friday morning after an illness covering several years. She was born in Lenoxville, P. Q., and was 62 years of age. She was married July 10, 1877 to Matthew Keith of Boston, Mass. Mr. Keith died March 24, 1888.

Mrs. Keith came to Oxford about twenty years ago, and purchased the Prescott Pike farm, on the hill overlooking Lake Thompson, which she remodeled into a fine summer residence. This she had occupied about four months when it was burned.

Work was at once begun and a much larger house was built for a summer hotel. This hotel is known as Oxford Spring House. Here were installed the first electric lights in Oxford. About five years ago she occupied this hotel and then sold it.

She next erected the fine residence on High street, now owned by Dr. H. R. Harris. She next purchased the village hotel, known as Lake View House and remodeled and refitted it in first-class shape throughout. On account of failing health she was obliged to give up running the hotel and it was sold to James Pledge of Norway. It was burned about three years ago.

These are the largest enterprises she was engaged in, but there were many smaller ones. She had great public spirit, and always was interested in any move to improve the village, and ready to help in any cause for public good. For the past three years she has been confined to her bed most of the time.

Pullets That Lay.
Ralph Charles of No. 8, Lovell, says he has fifty pullets that have laid nine hundred and fifty-two eggs in the month of February. How is that?
Now Freeman Andrews wants to tell what his little flock of hens has done for him since Thanksgiving. "I started with four roosters and eleven hens, six-year-olds, and five pullets. Afterward I killed two roosters, making left, thirteen in all. I have some very nice fat hens. I have fed and cared for them more than for any cow. I have fed corn on the cob and water all winter, and up to now have got seventeen good eggs, six frozen ones. Now I don't know whether they were frozen before they were laid or after, as we have had very sudden changes in the weather this winter. From now on I expect them to lay twice as much as they have been."

"I have come to the conclusion that we must do well by and feed, to get good results. I presume Mr. Charles fed his hens on a change of food, such as meat scraps, bran, bones, oyster shells, broken earthenware, and white chalk will make them lay tremendously."

THE KEELEY INSTITUTE

Oldest and Best Known Institution in Maine for Treatment of Liquor and Drug Addictions. Dr. T. B. Morrissey, Manager and Physician-in-Charge.

What is known as the "Keeley Cure" for Liquor and Drug using was discovered by Dr. Leslie E. Keeley of Dwight, Illinois, more than a third of a century ago. Since that time the Keeley Treatment for Liquor, Opium and Nervous Diseases has been constantly and successfully administered through the medium of Keeley Institutes, one or more of which are located in nearly every State of the Union, Canada, England and Mexico.

The Keeley Treatment was established in Maine over twenty years ago; its success was immediate and continuous and its permanency and stability as an institution has been fully established. The Maine Keeley Institute has, for the past fifteen years, been located at 151 Congress St., Portland, Maine, on Munjoy Hill, in a building where modern conveniences and accommodations tend to increase the comfort of the patients.

This Institute—the only one in the State—is the oldest and best known institution in Maine for the treatment of liquor and drug addictions. Since its establishment a small army of men and women have been cured here and restored to health, family and earning capacity. For many years the Institute was under the management of Mr. J. L. Lovett, who retired in July, 1911, having disposed of his interests to Dr. T. B. Morrissey, who has since been Manager and Physician-in-Charge. For a number of years previous to August, 1906, Dr. Morrissey was the Physician-in-Charge at this Institute and is personally acquainted with a large number of the former patients of this Institute.

Dr. Morrissey is a graduate of Rush Medical College, of the University of Chicago, and is a licensed practitioner in the State of Maine. His entire time for more than twelve years has been devoted to the study and treatment of liquor and drug addictions. During this time he has been connected with some of the largest Keeley Institutes in the United States and Canada, and has been a member of the medical staff at the parent Institute, Dwight, Illinois. For four years previous to his coming to Portland, he was in charge of the Keeley Institute at Salt Lake City, Utah. He is a specialist in the treatment of the various complications resulting from the use of liquor, opium, morphine, cocaine and other narcotic drugs.

It is an established fact that the Keeley Treatment continues to be recognized by the public as the only successful treatment for the diseases before mentioned. Initiators pay high, though unwonted, tribute to the Keeley Cure in their constant recognition of it by comparison of their treatments to it, thus giving it precedence and prestige as the standard. All concede that it is the best known and most widely used of any, and so fully identified with the name of Keeley has the treatment for liquor and drug addictions become that many people assume that every establishment where such treatment is administered must be a Keeley Institute.

This is a mistake and sometimes has worked to the disadvantage of the Keeley Treatment. In one instance, a patient, not a Keeley Institute, was administered anywhere except in establishments authorized by The Leslie E. Keeley Company of Dwight, Illinois, and known by the uniform name of The Keeley Institutes. There is no such rule.

The Keeley Treatment, in four weeks' time, relieves drink patients from all craving, appetite and necessity for alcoholic stimulants. Users of opium, morphine, cocaine, laudanum and other narcotic drugs are relieved in from four to six weeks.

At all Keeley Institutes the hypodermic method of treatment is constantly used, which, according to all reputable physicians, is painless, prompt and efficient. Under the Keeley system of treatment there is no nausea or sickness of any kind, and no nauseous, emetics or other irrational methods are ever employed. The Treatment cures by restoring the system to a normal condition and removes all craving, desire or necessity for liquor or drugs.

Street cars from all depots and steamer landings connect with the Munjoy Hill car, which runs direct from the Union Station to The Keeley Institute, 151 Congress St., Portland, Me. All correspondence is strictly confidential. 10-11

Often The Kidneys Are

Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

Weak and unhealthy kidneys are responsible for much sickness and suffering, therefore, if kidney trouble is permitted to continue, serious results are most likely to follow. Your other organs may need attention, but your kidneys most, because they do most and should have attention first. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root. A trial will convince you of its great merit.

The mild and immediate effect of Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest because its remarkable health restoring properties have been proven in thousands of the most distressing cases. If you need a medicine you should have the best.

Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Birmingham, N. Y. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

The Leap Year ball, first advertised for Feb. 1, but postponed indefinitely on account of mumps, came off on the evening of March 1, with a large attendance of resident young people and representatives of neighboring towns as follows:—Harrison, Marshall Pitts, Harvey Pitts, Hartley Pitts, Arthur Stanley, Deau Martin, Mary Pitts, Mrs. Charles Jackson, Blanche Wood, North Brighton, Chester Winslow, Blanche Meserve, Charlie Wentworth, Nancy Mead, Mary Knight; North Waterford, Pip Manning, Leon Bisbee, Mary Dresser; Lovell, Madge Hoad. Packet of the family orchestra furnished delightful music, assisted by Harry Smith of Harrison, the celebrated accompanist, whose performances on the snare and bass drums, cymbals, castanets and triangle enhances the inspiration of the musical harmony.

Bear Mountain Grange held open house on Saturday and gave a splendid reception to a goodly representation of five sister Granges, to wit: Suncook, 4; Sweden, 7; Crooked River, 10; Waterford, 2; Round Mountain, 8. Many other guests were present, coming by the unpunctual weather, and much of the sumptuous dinner prepared and displayed upon the banquet tables remained untasted. Worthy Master McIntire presided, assisted by a full official staff, and Lester Pike presented a fine program consisting of music by the choir, recitations by Misses McKenney, a reading by Sister Lulu Pinkham, vocal solos by Brother Elias and Sister Charlotte Morse, also piano solo by the same, followed by an interesting debate on the question: Resolved that we should keep our brightest boys on the farm, rather than educate them for the professions. W. M. McIntire opened the discussion with the affirmative, and illustrated his position by a brief narrative of the case of a young man, who in less than two years working as a hired hand on a farm, saved the sum of \$400. Bro. Sias responded in an able manner in favor of the proposition, and gave a chance for acquiring fortune and fame in various avenues of business and professional life. Bro. George H. Cummings, one of Harrison's most skilled and successful farmers, made an able and strenuous argument in opposition to the affirmative, and with a persistency worthy of the renowned Solomon Chase, made a striking plea for "them steers" and the farmer's boy to train and live up to his belief in the Cummings summed up his argument in the words that we should educate our brightest boys to be farmers and our brightest girls to be "home farmers' wives. Interesting brief addresses were made by Bro. Lyman Plummer and Sister Kenneth of Suncook Grange, by Bros. M. E. Perry of Sweden and W. K. Hamlin, L. J. Saunders and Fernald of the home grange.

The crows are here again. Gladys Adams is somewhat better. Mrs. B. F. Pike is sick with pleurisy. Clifford Adams has returned to Portland, where he is employed in the plumbing business.

Blanche Farwell, who is employed in a store in Portland, has been at home for a few days.
Mrs. Frank Bell, who has been in very poor health for some time, is somewhat better and able to ride out.
The Waterford Entertainment Bureau gave its fourth number in the season on Tuesday evening, consisting of comedy drama, The Corner Store, with the following cast:

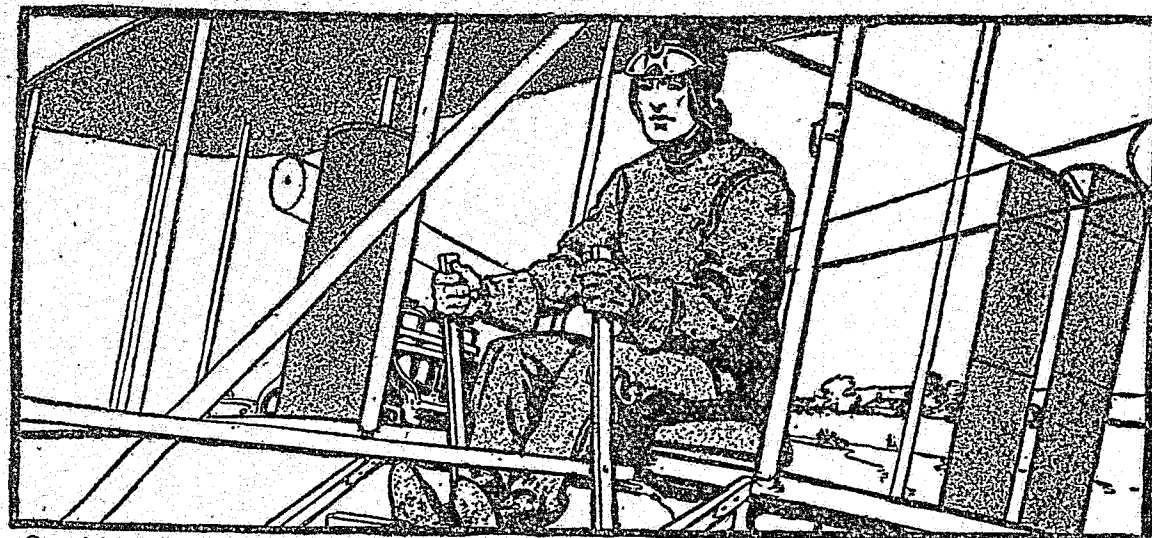

Elm Wheeler, who keeps the corner store..... Bud, his son, home from the city..... Harold Pitts..... Harvey Barton, Bud's cousin, a drummer..... Jimmie Haines, a student..... James Morse, a boy green..... Will Coyne, a student..... Jasper White, colored, always under suspicion..... Dora, Elm's niece and heiress to \$80,000..... Jerusha Jane Adams, a student..... Aunt Hannah, a student..... Carrie Plummer..... The play is a mélange of farce, robbery, runaway, arrest, a girl with a big fortune, burglary and mystery, all which work out well for the Corner Store, and everybody is happy.
